

Refugee Stars is an organisation built to help the refugees live comfortable lives.

Founded in 2016

We show kindness and generosity to the refugees.

Refugee Stars is a project started by refugees abroad to help people in refugee camps. We

provide them with food, shelter and other basic needs. We sponsor families of some of our members to get immigrant visas to the USA, Canada and other countries.

Our organisation is membership based where members enjoy many benefits. Every year we provide a free trip to Africa to one of our members. They visit the refugee camps we work with to witness our works. We also visa sponsor families of our stars or members. You also enjoy being a shareholder in chains of businesses that support our charitable works. Taxi businesses, schools, radio, hotels and others. Read more about individual projects we work on.

Projects:

Below are the projects we work on. Some of these projects help our charity keep moving forward.

1.Help poor and vulnerable families.

We support poor and vulnerable families with basic needs like shelter, food, clothings and education and others. To give to others, one must not have much. What you buy pizza here in the USA or other countries abroad can pay someone's school fees for a term. Therefore not helping someone is just negligence and lack of a trustable program that will help use the donation properly. Refugee Stars is just doing that. We are a project that helps fundraise for the poor.

2.Family Visa Sponsorship program

As our organisation grows we will start taking on bigger challenges of giving back to the community. And among the challenges is that of giving back to our own members. We know that our members were at once refugees and thus they have big families back home in Africa. We help reunite them with their families by carrying the load of sponsoring their family members. We cover all the sponsorship costs, from getting the best

immigration lawyers to flights, visas until they land here in the USA or other countries in Europe. We also do all the paperwork for you. The best thing about getting us to sponsor your family is that they get here quickly and in the same city and area as you. No more being in Europe when your family is in the USA. We get your family to be in the same place as you. This is private sponsorship we are doing, it's not refugee government sponsorship.

3. Business union development.

Every business needs capital to thrive. At Refugee Stars we understand that very well. That's why we operate a chain of small income generating businesses to further promote our charitable works. At this time we have business proposals and teams ready to push them forwards. Among the proposals that we have are the following:

- **Radio Station**

We have an ambitious proposal of building a Radio station somewhere it would have an impact on the community and promote our activities as well as sustaining our works. It's a

really big dream but if more heads come together we can bring this dream to reality. Our radio will be called RARUA FM. It will be a symbol of unity and progress to our membership organisation.

- **Hotels**

This is another proposal that we have. It's ambitious too. Our members want to build a hotel in the refugee camp that would challenge that of St. Patrick. We will challenge them by building a cost effective grass hatched sudanese like homes hotel right in Kasonga. The outside will look like those house of sudanese but the inside will be beautiful with modern furniture and furnished in a modern way. It will be a hotel to attract humanitarian tourists.

- **Taxi business chains**

We want to start a taxi business in and around Uganda and other countries to generate revenue. All our members agree with this business proposal. We are all excited about

this one. Taxis are cheap to buy. If we start with 2 or 3 taxis we can go from there.

- **Shopping Mall.**

This business proposal is among our dreams. This is what we would like to do in the near future. Opening up a shopping mall chain can be a profitable move. Our dream is to have a chain of malls in and around Africa in our name. We will do this if we put our hands down together.

- **Others.**

There are so many proposals that we have among us. Our organisation is where every members' idea is welcomed and brought to reality. We have proposals like opening a Telecom company, Tv station, travel mobile app, among others.

Membership.

Our organisation is a membership based organisation where every member contributes pizza every once a month. But since we live in different locations and time zones, we put the contribution in one treasure box and do amazing things with it instead of buying unhealthy junk food. We agreed with our members to contribute only USD \$25 per month. We do this just once a month. If you do the math, this money can do wonders. Our target this fiscal year is to reach 500 members. When every member manages to buy the pizza once a month it's 25×500 which equals \$12,500. In one year only we can manage to contribute a sum of USD \$150,000. If you stop and think for a moment, this is so much money that came from little. Within one year we can build a radio station, a hotel and start all other businesses that further generate more income. If we set even more ambitious goals and reach 1,000 members who are willing to contribute pizza once a month. In just 3 years we can put

together USD 1 million. With this money we can build a palace and start a kingdom. It's a joke. We can do so much with all that money. All our projects can become a reality. Imagine, it all came from little.

How to Join

Joining our organisation is not as hard as joining a secret cult. It's simple.

Contact one of our members and get directed to the person in charge. Or you can visit our website and fill out the join our stars form. The person in charge will be in contact with you shortly.

Benefits

You get to be part of the organisation that's the talk of the village. It's a pride to be part of Refugee Stars. We are stars. You get a large amount of shares in all the business chains associated with our charity. By the way we have a perk whereby we sponsor your family members to meet you abroad. We also pay for your trip to Africa to witness some of the activities we are doing there. The benefits are endless. We can write our own book about benefits, they are so many. Join us today.
